

Microsoft 365 Compliance Assessment

As compliance becomes increasingly important for your organizations, it can be a challenge to keep up with the constantly evolving world of data compliance.

The Microsoft 365 Compliance Assessment helps organizations navigate these requirements and manage compliance with regulatory and privacy requirements, such as PCI DSS, SOX, and CCPA. It includes workflow capabilities, detailed instructions, and a risk-based compliance score to assist in improving compliance.

Our team at KiZAN can provide guidance on completing tasks to improve your organization's compliance. We can identify improvement actions and provide guidance on completing them. By utilizing the Microsoft 365 Compliance Assessment, you can effectively address compliance challenges and protect your business.

This assessment is essential for SMBs facing limited resources and an increasing need for compliance in the face of threats like fraud and cybercrime. It helps organizations ensure compliance with regulatory and privacy requirements, as well as streamline compliance management. The Microsoft 365 Compliance Assessment can assist with completing risk assessments, provide step-by-step instructions on suggested improvement actions, and track progress in completing improvement actions.

M365 Compliance Assessment Deliverables:

- ▶ Enable Purview Compliance Manager in Microsoft 365 (if necessary)
- ▶ Use pre-made evaluations for common industry and regional standards and laws, or customize evaluations to meet your compliance needs, with one premium template included (90-day trial)
- ▶ Create a list of priority improvement actions to improve compliance with privacy and regulatory policies
- ▶ Provide guidance on suggested improvement actions to help you comply with relevant standards and regulations. View implementation details and audit results for Microsoft-managed actions.

We would love the opportunity to work with you and help improve your organization's compliance posture. Please don't hesitate to contact us to discuss your needs and schedule a consultation.
